Return target ¹	To outperform inflation, measured by the Consumer Price Index, by 4.2% pa after fees and taxes, over any 10 year period.
Return	MySuper commenced on 29 November 2013 and has three full financial years of return history. The one year return to 30 June 2017 was 9.07%.

Comparison between Return Target and Return

- Return:** The one year return to 30 June for each of the years shown. There are no prior year returns because MySuper commenced on 29 November 2013.
- Moving average return target:** This represents the average return target, including the Consumer Price Index, for the years shown. The current "Moving average return target" is 5.20%.

Level of investment risk ¹	Medium to High. Negative annual returns expected in 3 to 4 years out of every 20.
Statement of fees and other costs ²	Super: \$608 pa

- The return target and level of investment risk measures are calculated using a model based on how we generally expect investment markets to perform over the long term. The actual performance will vary from our model, and from year to year. The actual return received in any year will be different to the return target, and may be negative. Including the Consumer Price Index, the current return target is 6.1%.
- The statement of fees and other costs is for a representative member who is fully invested in MySuper, who doesn't incur any activity fees during the year and who has an account balance of \$50,000 throughout that year. It excludes investment gains/losses on the \$50,000 balance. Lower fees may apply in your circumstances. Fees and other costs reported is comprised of:

Fee/Cost Description	Amount	Fee/Cost Calculation Basis
Administration Fees:	\$333.00	\$1.50 per week plus 0.51% of account balance (includes 0.01% Government Levy Cost recovery)
Indicative Investment Fees:	\$230.00	(0.46% of account balance)
Estimated Indirect Cost Ratio:	\$ 45.00	(0.09% of account balance)
Total	\$608.00
